

NAS NORTH ISLAND - NAVY REGION SOUTHWEST NAVY ENVIRONMENTAL LEADERSHIP PROGRAM

PARTNERSHIPS

DOE - ALBUQUERQUE OPERATIONS OFFICE

ACTIVITIES INVOLVED

Department of Energy (DOE) - Albuquerque Operations Office,
Technology Development Division
Naval Air Station (NAS) North Island

STATUS

Active

MISSION

Develop and improve a working technical rapport between the Navy and DOE in the pursuit of streamlining the government and demonstrating that agencies with diverse core missions can team and partner for the good of the nation

PARTNERSHIP DESCRIPTION

NELP and the DOE have held several meetings on technology sharing and working to solve problems common to both agencies. Representatives from NAS North Island NELP and the Technology Development Division of the DOE met to discuss the environmental technologies being developed by the DOE and demonstrated by NELP.

BENEFITS

- Enhances communication across government agencies
- Avoids redundancies of experiments, projects, or demonstration of new technologies
- Facilitates finding mutual solutions to mutual problems through sharing of "lessons learned"
- Leverages capabilities and technologies to develop the best solutions
- Combines financial resources for more technology demonstrations and innovations

ACCOMPLISHMENTS

Date	Activity
AUG 1996	DOE and NELP representatives met to discuss environmental technologies being developed; documents transferred between NELP and DOE

CURRENT STATUS/FUTURE PLANS

Date	Activity
Ongoing	Continue interagency communications on environmental technologies

COLLABORATION/TECHNOLOGY TRANSFER

Representatives from NAS North Island NELP and the Technology Development Division of the DOE met to discuss the environmental technologies being developed by the DOE and NELP. Copies of a report titled "A Compilation of Thermal *In Situ* Technologies" were distributed as well as materials on tank monitoring, a DOE perspective on natural attenuation, information on cost/benefit analysis, and information on DOE's pollution prevention efforts.
